

Arbitrum Land Whitepaper

Join the \$ETH adventure
Build on Wealth on Arbitrum, Invest with \$ETH

Up to 1.3% daily \$ETH miner with:

Miner Burn

Compound Sacrifice

Potion Yield Boost

9-Tier Referral System

Claim Tax Portal

Arbitrum Land

is a first-of-its-kind global decentralized community platform and the most advanced miner ever created. Designed to help its community accumulate wealth through active and passive income streams, it features innovations such as potion yield boosts, a powerful compound system, and a dynamic tax portal. Arbitrum Land ensures sustainable growth and economic inclusion for all participants.

Economics

Castle Arb

Castle Arb is the central hub of Arbitrum Land. Clicking on Castle Arb opens the Arbland dashboard, where you can deposit \$ETH and receive "KNIGHTS." The minimum investment is 0.003 \$ETH, adjustable based on \$ETH value. Depositing \$ETH for KNIGHTS kickstarts your earnings, with a pre-boost max APR of 1% and a maximum ROI of 250% on your principal investment.

Accumulated \$ETH populates in the "Rewards" box. After investing in Castle Arb, your wallet is whitelisted for Arbland Referral Royalties. Share your referral link to earn extra \$ETH coins directly.

Compound Sacrifice

Castle Arb does not feature a compound function on the dashboard; this is a deliberate design choice in Arbitrum Land. To compound your earned \$ETH bounty, a **0.01 \$ETH fee** is required. This payment acts as a buy-in to Castle Arb at the same rate for converting \$ETH to Knights, allowing you to compound your rewards without extra fees.

The Compound Sacrifice feature enables you to redeposit Knights, enhancing your rewards. The value of a Knight remains static, meaning compounding your investment increases both your Knights and your share of the contract, encouraging new deposits and supporting a healthy global APR.

This design promotes a sustainable \$ETH ecosystem. Experience shows that excessive compounding without fresh capital can harm protocols. In Arbitrum Land, using the compounding feature boosts your Annual Percentage Rate (APR).

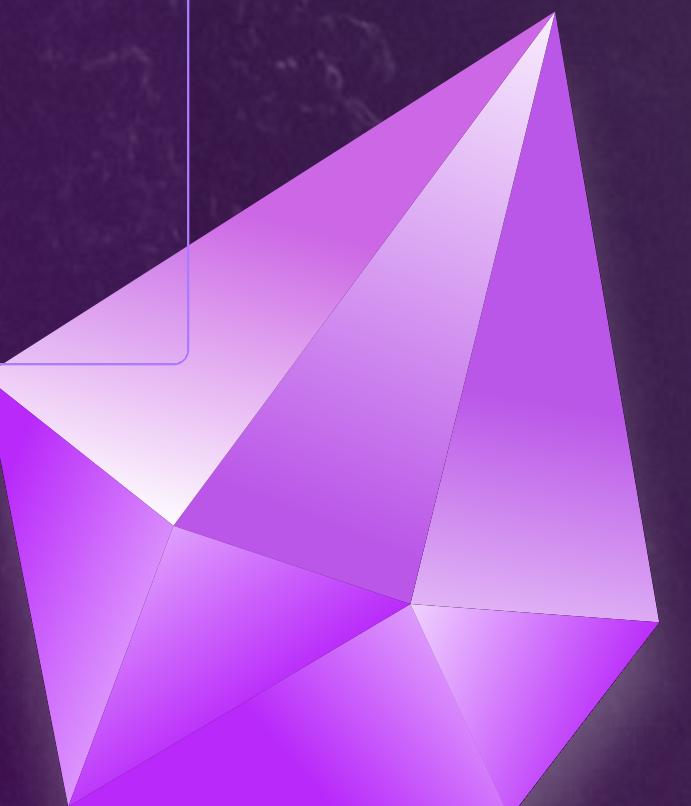

Tax Portal

In Arbland, users can withdraw \$ETH earned from Castle Arb through the Tax Portal, which is vital to Arbland's game theory. Players nearing or reaching ROI face higher taxes on their Knights. Withdrawn \$ETH incurs only standard protocol fees and is not taxed through portal tiers.

The Knights Tax burns a portion of Knights equivalent to the claimed value, reducing earning potential as ROI increases. This is a sustainability mechanism that boosts earnings for players with lower ROI and attracts new participants, as burned Knights are permanently removed from circulation from the claimers account.

The Knights Tax features a tiered structure, similar to the miner tax in Polygonland, with rates as follows:

ROI	Tax
50%	10%
75%	15%
100%	20%
150%	30%
200%	40%

Wizards Tower

Unlock the power of Soul Bound Potions at the Wizard's Tower, boosting your Castle Arb yields by increasing your Knights' \$ETH earnings.

Earning Requirement

To purchase a potion like the "Brew of Bounty" (0.03 \$ETH), players must first claim the equivalent amount in Castle Arb, boosting their daily APR by 10% up to 1.1%

Strategic Withdrawal

Players must withdraw the potion's cost before advancing to the next boost level, this encourages long-term investment game-theory.

Exclusive Access

Only SCC NFT holders can acquire Boost Potions

Eligibility

Automatic access for pre-launch SCC NFT holders; post-launch holders must apply at the Wizard Tower

Zero Fees

Funds for Boosts enhance Arbitrum Land's total value locked with no protocol fees

The Brew of Bounty

10% Yield Boost

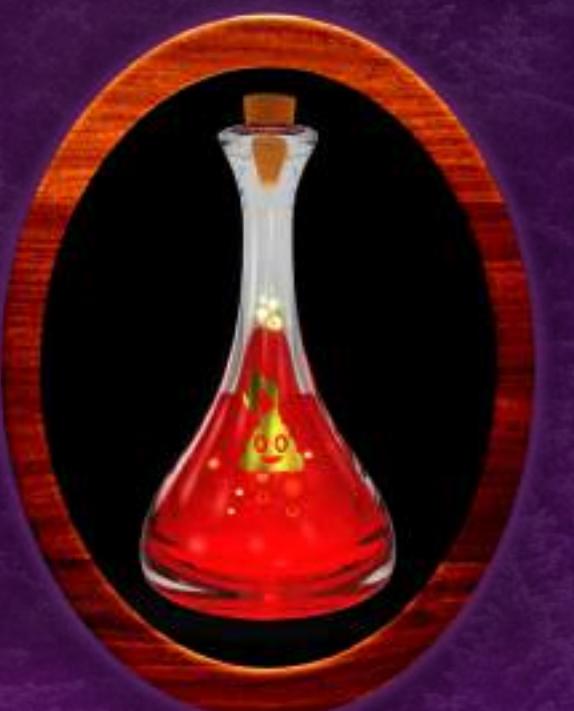

0.1 \$ETH

The Tonic of Triumph

30% Yield Boost

0.3 \$ETH

These soul-bound potions provide a significant competitive edge, adjusting dynamically with contract value while ensuring consistent outperformance. Nontransferable and permanent, they eliminate confusion from excessive NFTs. Join the Wizard's Tower to amplify your Arbitrum Land journey.

Referral Royalties

Introducing "Referral Royalties" in Arbitrum Land! Our innovative system rewards users for referring others to the platform. By participating in the Referral Royalties program, users earn a percentage of their referrals' deposits, paid directly \$ETH to their wallets.

Balanced System

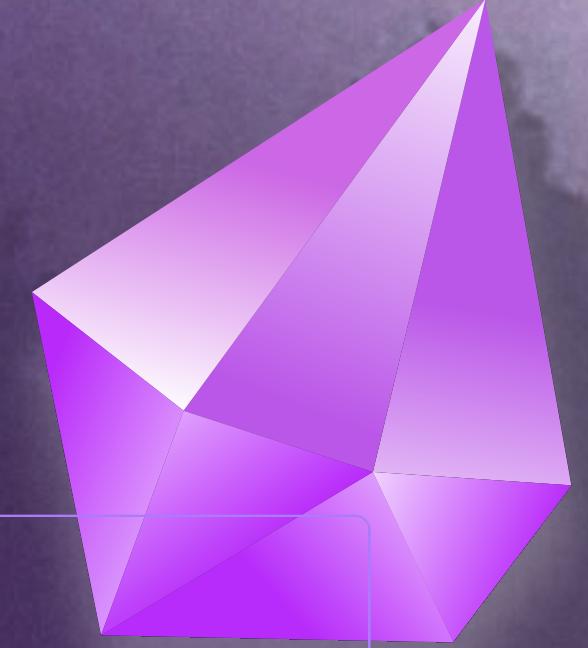

Attract influencers and community members while preventing excessive drainage by individual accounts. Each referred wallet generates rewards from only three deposits.

Tiered Structure

The more investment a referrer brings, the higher their reward percentage. While the referred \$ETH continues to progress to the player sustainably to higher tiers.

Referral Tiers

Starting at 1%, rewards can increase up to 20% based on the total ETH onboarded by referrals.

Referral Royalties

This system promotes active community growth and ensures fair, sustainable distribution of referral rewards, boosting both individual and collective success in Arbitrum Land.

Referral Tier	Required ETH Onboard	Reward Percentage
Tier 1	0 \$ETH	1%
Tier 2	1 \$ETH	2%
Tier 3	5 \$ETH	3%
Tier 4	15 \$ETH	5%
Tier 5	50 \$ETH	8%
Tier 6	150 \$ETH	12%
Tier 7	450 \$ETH	15%
Tier 8	1500 \$ETH	20%

Arbitrum Land Investment fees

Total Fees for Deposits and Withdrawals:

7%

3% — to Team and marketing

3% — to SCC NFT Holders

1% — to Polygon Land

These fees support the ecosystem and reward participants, ensuring sustainable growth and marketing within Arbitrum Land.

Deposits

Minimum Investment: 0.003 ETH

Withdrawals

Standard Protocol Fee: Included in the 7% total

Compounding

Compound min investment: 0.01 ETH per action

Potion Purchases

Fee: 0% (all funds contribute to Total Value Locked)

SH!TCOIN CLUB DAO Membership

Join the SH!TCOIN CLUB DAO with our PFP NFT collection on Polygon. Each token serves as your exclusive membership, unlocking unique benefits and voting rights.

Join us and maximize your earning potential with SH!TCOIN CLUB DAO!

Governance

Hold an SCC NFT and participate in monthly Community Governance votes to earn lifetime passive income dividends from our Eternal Engine.

Airdrops

Paid out over \$70,000 to date throughout 10 straight monthly airdrops (as of July 2024).

Minting & Raffles

Mint an SCC NFT for 0.1 ETH or win one through our Raffle App for just 0.0025 ETH per ticket.

Yield Boosts

SCC NFTs are eligible for yield boosts and earn 3% of all ETH deposited and withdrawn from Arbitrum Land and Polygon Land.
